

StatBridge Studio

STATISTICAL & RESEARCH SUPPORT

Welcome to the Data Audit Package!

Your project is in expert hands. To begin evaluating your variables, checking hypothesis setups, and designing the statistical diagnostic plan, please follow the steps below.

Next Steps for Your Project

1. Prepare Your Project Files

Gather your dataset (Excel, CSV, or SPSS format) and your survey questionnaire or draft thesis methodology.

2. Send the Files by Email

Send an email to hello@statbridgestudio.com with the subject line:
[StatBridge] Files for Data Audit - [Your Name]

3. Diagnostic & Alignment

I will confirm receipt of your dataset within 24 hours. I will perform the diagnostic audit, verify variable distribution parameters, and reply with your written diagnostic feedback and statistical plan.
