STATISTICAL & RESEARCH SUPPORT

Welcome to your Survey / Thesis Analysis!

Let's get your dataset structured and analyzed. To start cleaning your files, formulating frequency reports, and executing your hypothesis tests, please follow these steps.

Next Steps for Your Project

1. Prepare your dataset & questionnaire

Gather your data files (Excel, CSV, Google Sheets, or SPSS formats) and your survey questionnaire. Ensure you outline your research goals and hypothesis statements clearly.

2. Send the files by email

Send an email to hello@statbridgestudio.com with the subject line:
[StatBridge] Files for Survey/Thesis Analysis - [Your Name]

3. Methodology & Delivery

I will confirm receipt within 24 hours. Messy labels will be cleaned, frequency and descriptive parameters evaluated, and hypothesis models executed. You will receive report-ready tables, descriptive charts, and summary notes to write your results.
